

Marigold School

Thanks to all our dedicated gardeners and parent helpers this year! We are watching early season veggies, like peas and kale begin to sprout already. As you plant your home gardens, think about donating the small plastic containers your starts come in to the Garden Club. Thanks to Lifecycles, and our own seed saving efforts, we have the opportunity for every student to plant, nurture, and bring home at least a couple of seedlings, if they so choose.... we will run out of pots before we run out of seeds though!

Message to our Grade 4/5 Families re: Mandatory Mask Protocols - Thank you for having your child bring and wears masks since the new requirements. We recognize this is an adjustment and the students have done well with this change.

We are hoping you can:

Ensure your child has a mask and

Store a second mask in their backpack/jacket in case they forget one, lose it, gets soiled, etc.

We are experiencing a large demand for our one-time use masks which is not sustainable for the school or our environment, and appreciate any support with this (Thanks).

Water bottles and Utensils – if your child(ren) need or want to have water at the school we only have water bottle filling stations, so please ensure they come with a clean water bottle. If they need an eating utensil, please have them bring them to school. Thank you for your help with this as are handing out a lot of one-time-use cups and utensils.

Fields – now that the good weather has returned, next week we are reopening our fields for play spaces including recess and lunch breaks.

Upcoming dates:

April 15- Gr. 5 Shoreline zoom transition

April 22 – Earth Day

May 6-7– Student Led Conferences (early dismissal – 11:50am)

May 9 – Mother’s Day
